Death Is Caused Partial Acceptance by France of American Proposal Seen as Prelude to Settlement

BY ROBERT BARRY (EXCLUSIVE DISPATCH)

WASHINGTON, Oct. 26.—Secretary Hughes has won his Had Much to do With Rapid fight for a scientific inquiry into Germany's ability to pay reparations-the amount and the method. It has taken Europe just three days short of ten months to come to the essential terms of the proposal he announced at New Haven, Ct., December 29, last. French acceptance of the Hughes proposal, announced today, is not as complete as might have been 26.-Charles P. Steinmetz, the wished, but it is satisfactory. Reservations are made by Premier Poincare to preserve the structure of the Treaty of Versailles, but they do not bar the way. reparations must be divorced, a point upon which Premier Peincare heretofore has differed from Great Britain and the United States.

France will also have to face the question of reducing the amount of indemnity expected from Germany under the Versailles Treaty, which in the past has been fixed at 16,600,000,000, or 132,000,000,000 gold marks. This sum and the question of granting a moratorium to Germany were the points which led to the failure of the last expert bankers' commission, of which J. P. Morgan was a member. (BY CARLE AND ASSOCIATED PRESS)
GENEVA. Oct. 24.—The proposal to hold a conference on reparations is heartily favored in League of Nations circles. Indirectly, but warmly, the proposal was strongly supported at today's session of the international conference.

Officials of the League of Nations explained that the League had not acted because the principal powers preferred to keep the problem in their own hands, but they said the machinery of the League was ready to be put at the disposal of the powers, as in the case of the reconstruction of Austria and as it will be for Hungary. Financial experts of the League incline to the view that there can be no real settlement of the reparations question without the help of the United States or without a simultaneous settlement of the nestion of the numerical of the nestion of the inter-Allied If, as the British government anticipates, M. Poincare agrees to these and other conditions, it will then remain only for the nations participating in the conference to appoint their experts and formulate a program of procedure.

British officials seem to favor Berlin as the principal seat of the conference, as this would make Germany's books and records and the German officials themselves more accessible to the experts who are to appraise Germany's assets and her capacity to redeem her indemnity obligations. at the age of 72 expects to complete his work for a master's degree with a major in English. As a thesis, Mr. Pemberton will write of early Minnesota life from personal observation.

The life story of this elderly student includes the romance of Minnesota. He came to this country and St. Paul from England with his folks in 1854. The family purchased land in Dakota county. The trials of a pioneer were theirs.

Pemberton started school at the University of Minnesota in 1863 when there was but one building on the campus. He attended preparatory school under Dr. Washburn and, after as interval of work, entered the university proper in 1831. His work at this time was varied and included building fires for Dr. W. W. Polwell, sweeping the building and preaching.

Some years later Mr. Pemberton entered Hamiline and was graduated with the class of 1897. After that he took graduate work at Minnesota and has supplemented his education with various courses from time to time.

Big, deep residence lots on gently slop-ing hillsides for

\$650

Business lots in a potential city of 12,000 people, in the exact center of City Terrace, on two main boulevards and a 5c yellow car line for

Fine, large, level lots adjoining our new business center for

\$850 to \$1950

Factory sites in CITY INDUSTRIAL TRACT, which is part of the same property, at prices so low that 17 NEW FACTORIES

have located here already, and many

How can we sell these magnificent lots, only nine minutes by automobile from Los Angeles center, on two yellow car lines, with improved streets, water, gas and electricity all installed, for prices only ONE-HALF that asked by others for the same kind of lots EVERYWHERE ELSE in Los Angeles?

Then The Answer

Here is the answer straight from the shoulder-

The land that makes up City Terrace and City Industrial Tract was purchased by a syndicate of prominent Los Angeles men from the Huntington Land and Improvement Company on FEBRUARY 1st, 1922. Mark that date-February, 1922-20 MONTHS AGO!

Since that date—in 20 months—the value of surrounding acreage has increased 250%.

If we had to go out today to buy land near Lincoln Park for subdivisions, just to come out even on the deal we would have to ask more than twice as much for every lot as we are asking TODAY in City Terrace.

Look Los Angeles up and down, east and west, north and south, and you will not find such a sure-shot profitmaking proposition as a lot in City Terrace, next door to 10,000 jobs, square in the path of the new viaducts
and only 3 miles from Los Angeles center.

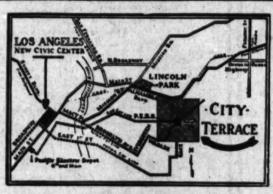

\$1,570,000 worth of lots in City Terrace have been sold already. Better hurry along and get yours at OPEN-ING PRICES before it is everlastingly too late.

Edward Robinson of Pasadena Tells of First Pony Express Rider Leaving Sacramento in 1860

By a "Times" Staff Correspondent

PASADENA, Oct. 26.—Edward I. Robinson, pioneer resident of
California and who saw the first pony express rider, Billy Baker, leave
Sacramento on April 3, 1860, is today celebrating his eightieth birthday at his Pasadena home 440 South Los Robles avenue.

In spite of his age Mr. Robinson is in perfect health and very active. He recalls the early California days as though they were but moher Leads the ASSERTED ARRESTED

HANFORD, Oct. 26.—Responsibility for the death of Miss Zeida Furman which occurred as a result of an auto accident near Fresno, is to be investigated, District Attorney Lovejoy of Fresno has announced, and the Fresno has announced, and the Fresno county grand jury may be asked to return an indictment against H. Stewart of Hanford, whose car is said to have overturned the Furman car. This is the second death on Fresno highways which has occurred within a few days. AT SANTA BARBARA has occurred within a few days. The coroner's jury in Furman case found no one responsible for the accident. The funeral of Miss Furman was conducted yesterday. Six of the girl's classmates of the class of twenty-two, Hanford High school, acted as honorary pall beavers. In view of the price of \$50,000 having recently been paid by the Rudoiph Wurlitzer Company of New York for a Stradivarius viloin in their \$150,009 collection, a new interest attaches to a violin owned by Charles D. Glitchrist of 1221 Castillo street, Santa Barbara. On the inside of the violin is this inscription: "Antonious Stradivarius Cremento, Faciebat Anno 1755."

Considering that the leading breeders of the United States were contributing from their highest to the sale and being connected with the World's Dairy Congress, this record is one of which California may justly be proud. Also the fact that the record was made by a calf and not by a mature cow with an established record, makes it all the more outstanding and also to the credit of the Berylwood breeders.

This showing in a national sales event is particularly gratflying especially since there has been so much serious concern about the future of the breeding industry in this State.

Fullerton scored in the last minute of play in the first half, when Evans, Fullerton's quarter, carted the oval across the line after a thirty-yard run. The Jackrabbits carried the Reds off their feet for the first few minutes of the third quarter and ran the ball down the field by straight football for their only score. Long Besch converted which gave her the additional point necessary to win.

NO MORE TOE HOLDS IN LONG BEACH

LONG BEACH Oct. 26 .- Wrest ling as a sport, or anything else, has been branded as naughty and undesirable in this city by the City draft a new ordinance banning such exhibitions in Long Beach. The law is aimed at the wrestling arena on East Anabelm street that until

The old law, which made it a misdemeanor for any female to attempt a tochold or headlock on a male person within the city limits, was designed solely for the purpose of banning rough and uncouth grappling exhibitions between male and female bathers on the beach, it was learned, being sort of a runner-up to the famous Peek bathing-suit ordinance. Now the city solons will make it unlawful for wrestling bouts between members of either sex within the municipality.

Workouts on Multnomah Field where tomorrow they will clash occupied part of the day for the warriors of the University of California and Washington State College football teams. Both teams arrived here this morning.

Meantime the public was rushing the box office and tonight only a few plasteboards for the grand stands remained on hapd. Excellent fall weather, with prospect for it continuing tomorrow, has stimulated interest in the game.

Not since 1921s have Portland football enthusiasis had a chaire to see the California team in action. Then, as at present, California's orphonent was Washington State.

At that time the meeting was a championship affair, as the two teams were the strongest in the conference, and a victory for either would go a long way toward determining where the honors would fall, California won, 14 to 6.

This year it is different. While conference, and a victory for either would go a long way toward determining where the honors would fall, California won, 14 to 6.

Bellehurst Hillslopes

Jpening Sale NOW-on

One week ago today the first announcement of the opening sale of Bellehurst Hillslopes appeared in this paper.

As this advertisement is written just five days later, word comes that sales in this unique tract have passed the \$300,000 m rk, with streams of new buyers coming to inspect the property every daylight hour.

A truly overwhelming demand and conclusive proof as well that the people of Southern California have recognized at once the suprome desirability of this unusual property and are resolved to BUY HERE NOW FROM US while there is still a chance to take advantage of our OPENING PRICES.

Nothing like it exists today anywhere in the metropolitan area of Los Angeles. Marvelously beautiful view lots, all different in size and shape, in the heart of the fastest growing city in America, for sale NOW at prices ranging from

\$1500 to \$3000

-with a few special bargains as low as \$900.

Two or three hundred dollars down is all you need to buy a lot in Bellehurst Hillslopes now—a mere fraction of the price that wealthy people will gladly pay for these matchless hillside homesites-for while there are thousands of acres of flat lots in and around Los Angeles, there is only a very limited amount of this beauiful hillside property, and there will never be any more when this is gone.

And it is doubly important to consider the unusual location of Bellehurst Hillslopes, on the OUTWARD CURVE of the southern point of the Verdugo mountains, just where these beautiful foothills pierce the City of Glendale to its EXACT CENTER.

Almost every lot has an absolutely unobstructible THREE-WAY VIEW of valley, city and

The only persons who mourned his loss were his mother and alster. The last letter they received from him was posted in Shanghai. Though the evidence connecting him with the recluse of Rainbow Island was slight, and purely circumstantial, Colonel Anstruther provided for the future of his relatives in a manner that secured their lasting gratitude.

IG business in Southern California is exempli-fied in the Southern California Edison Company. It owns or controls and operates one of the most comowns or controls and operates one of the most comprehensive systems in the world for the generation, transmission, and distribution of power. Its principal development on the Big Creek and San Joaquin River is the largest hydro-electric project ever undertaken in this or any other country.

Properties include twenty-seven hydro-electric and steam generating plants having a present installed capacity of 503,700 horsepower, of which 376,600 horsepower is hydro-electric.

is hydro-electric. The territory served embraces 55,000 square miles. There are more than 62,000 shareholders of whom 95% are consumers. Stocks are dividend-paying and quoted at a premium. Gross earnings increased from \$226,143 in 1900 to \$19,485,867 in 1923 (year ended Sept. 30). Net earnings during the same period grew from \$104,276 to \$11,179,808.

COME TO TORRANCE Drive Down This Sunday

View This Wonder Field The Possibilities of Torrance as one of the greatest of all Off Fields are becoming daily more evident. You will notice the increasing prominence being given by the Press in regard to its rapid development.

rapid development.

The Proven Area of Torrance is already greater than the combined area of Signal Hill, Santa Fe Springs and Huntington Beach; and the outside limits of its oil-proven areas have not yet been reached as additional drilling ventures are successfully extending the known area by the bringing in of new far-out wells.

Producing Wells are being brought in week-iy—and to date there has not been a single dry hole drilled.

Two deep test wells are now drilling in the Torrance-Lemita section of the field. One of them is reported to have discovered a deep sand at a depth of 4100 feet. If this rumor proves true—as oil men believe it will—then Torrance will eclipse all of the Southern California Oil Fields.

Land values are increasing— Acres that a year or two ago changed hands at from Five hundred dollars to a Thousand for Truck gardening—today are selling at from (\$25,000) Twenty-five thousand to (\$50,000) Fifty thousand dollars per acre. One of the most responsible Oil Com-

per acre. One of the most responsible Oil Com-panies recently paid \$82,500 for one Acre which at the time of purchase was outside of the defi-nitely proven area.

Landowners' Royalty can be bought now for less than many times what it will sell for within a very short time. An investment now in the preferred type of Oil Rights—that is—in the purchase of a share of the ground-owners land oil and mineral rights should be most attractive in its pos
"bilities for handsome returns."

Our business is conducted most conservative-along the lines of Landowners' Royalties as he preferred investment—every portion of which we subject to the rigid scrutiny of our staff geolo-gist and our legal title searching staff.

Visit our Torrance Field Office Sunday, for fuller information without any obligation whatso-

ever on your part.

It's awfully hard for me to sit down every day and tell you in detail of all the advantageous things we are do-

Of course, I would like to come out and tell you of every instance where we might buy, say, half a million barrels of crude, at some seventy-odd cents a barrel, and resell it again at a fat profit, but it would not be good business to tip our mitt on those kind of deals.

When you invested your money in the "Julian Petroleum Corporation" you must have done so on your confidence in our "ability and integrity," and I can assure you your confidence in us will never be abused, and if it takes 100% of the earnings of this Corporation to make your profits worth while, that 100% will go to the people that supported our project.

For your information I might say that a prettier setting, for the success of our enterprise, could not be made to order.

"Every day we are doing big things." Things worth while, as you will realize when we start to pay you back your profits.

You will hear all kinds of mean remarks passed around. "by professional propagandists," but those are things we have to contend with, and, after all, the proof of the pudding is in the eating of it, so keep in mind there are over six hundred of us firmly determined that the pudding will not only be good, but that it will be served with real brandy sauce, even though there is some talk of putting prohibition into effect soon now.

CHURCH MAY BE JUSTICE CENTER

Broadway Edifice Sought for Superior Jurists

Congregation's Permission Only is Needed

Four Judges Would Sit in New Location

Superior Court, beginning et month, will have five new de permission is given, will be sted in the Broadway Chris-Church, opposite the Court-

lan Church, opposite the Courtheness.

Judge Craig, presiding judge of the Superior Court, has found that there not only is a shortage of judges to dispose of congested calendars, but a shortage of courthous space. He recently made a canvass of bulldings within a radius of a half-mile of the Courthouse and found no place suitable for a court. But one day he chanced to look at the church on Broadway and he went to see the pastor, Rev. W. S. Buchanan, and put the matter up to him. He took it up in turn with the board of trustees and its members on Wednesday decided to grant the permission, but the congregation nust confirm the action. It will becaken up on Sunday.

OFFICIALS SUMMONED

Maynard E. Laswell, of the hardrare store across the street heard
the alarm. He saw no one in the
san to the restaurant and sumshoned Greening and Shacklett.

It is believed that the bandits
had two confederates and two cars
sutside the Sank. No one saw them
make their escape, and it is beleved that the bandits ran out
the back door, the route Miss Colesam wished to take.

Deputy Sheriff Jack Wilmot was
a ringing some prisoners back from
Santa Fe Springs and passed the
bank shortly after noon. He saw
a car and two men swerve toward
the bank, but did not know that
hold-up was then in pregress.

The call was relayed to the Sherirts office and Driver White made
the run, eighteen miles in eighteen
minutes in a "fast wagon." Deputy
Meriff Harvey Bell led the squad
which went to Norwalk, with Depvises Stewart, Fitzgeraid and Conley. Fingerprints were observed on
the wall near the vault, and a second detail of fingerprint men was
sent out. Constables Freeman and
Witherspoon also answered the
call.

WHAT OF FRANCE? WHAT OF FRANCE?

America's reply to the British invitation to take part in an international reparations conference has gone forth, like the dove from the ark, across the turbulent political waters of the Old World. It is a measurager sent to determine whether the waters of hate have sufficiently subsided for America to attempt a landing.

President Coolidge, through the Secretary of State, agrees to American participation in such a conference, providing all the other nations immediately concerned are represented; and, last but not least, that there be no attempt to mix inter-Allied debts with

Saxony, since the first century R.C., has been the storm center of the Germanic states.

Conclusions, drawn from its past history, do not warrant the hope that Saxony will prove of any material benefit to the German republic in checking the present drift toward disintegration. Its policy has been that of the trimmer, the opportunist, always seeking affiliation with the stronger side and yet, strange fatality! always backing the loser.

But for this propensity to play were destroyed. For a name disappeared in the stronger side and yet, was ravaged from been destroyed.

ANCIENT WARS

From the time Tacitus described Saxonia as a country of wild boars and wilder human beings till Rismarck in 1870 brought it forty-four years of peacetul prosperity the land has been in a perpetual state of change and turmoil.

Even its boundaries have seldom remained fixed for any considerable period.

At one time it stretched from the North Sea to the border of Bohemia and from the French dominion to the Eibe River. Geographically, it has contracted, with small temporary expansive spuria, after every exhaustive conflict, till today it is equeezed into an area of 5787 square miles up against the Harz Mountains, almost surrounded by Prussia.

Coffee BAKED PRUNES

Wash one pound of prunes, cover with cold water and let stand four hours. Place the water and prunes in a covered casserole, add an inch stick of cinnamon, grated peel of one orange, and four tablespoons of sugar. Cover and set in a slow oven for two hours.

Peel six oblong potatoes and silce very thin, as for chip potatoes; season with sait and pepper, Meit four tablespoons of butter in a pudding mould. Lay a layer of the potatoes on the bottom, and fill the mould nearly full with the potato layers, sprinking melted butter over each layer. Place in a medium oven and bake thirty minutes. Drain off the butter and unmould on a hot, round plate.

CHIFFONADE SALAD

Piace in a cold bowl, that has been rubbed with a clove of garlic, one cup of cooked string beans cut in even pieces, one sliced cucumber, and one cup and a half of small pieces of cooked caulifiower; cover with French dressing and when ready to serve drain out the vegetables and arrange in even sized portions on nests of chilled and shredded lettuce. Sprinkle over all finely chopped beets, hard-boiled eggs and fine parsley.

P ORCELAIN, glass, nickel, German silver! You will find these materials throughout an Ice Cream Plant. No expense is spared by science in giving the Ice Cream manufacturer the best machines money can make. You will also find that every joint, every crevice of each machine handling Ice Cream is designed so that it can be "taken down" and thoroughly sterilized, with scalding hot water.

Ladies—we hesitate to say it—but the modern Ice Cream plant is cleaner than your kitchen!

Shown above are two 1000 gallon, glass lined thermos tanks in which the Ice Cream "mix" is held until it is frozen.

PETITION HITS TRUCK WEIGHT

Into Club Seeks Referendum on Load Increase

Wants Electors to Vote on New Ordinance

Referendum petitions to render passed by the City Council raising 600 pounds were placed in circu-

The Automobile Club urges all citizens to sign these petitions in order that the investment in high-ways made by the taxpayers may be protected. Forty employees of the club were engaged in circulating these petitions yesterday, and a large number of signatures have already been secured.

The petitions must have 11,000 signatures, and must be filed by November 5. Club officials expect to get many more signatures than are necessary by next Wednesday.

DEMAND ELECTION

The petitions demand that the ordinance be submitted at the next municipal election, or at a special election if one is conducted before the general election. The ordinance it is sought to nullify is No. 47.105 (New Series,) which amends the load limit ordinance passed in 1920. It was presented September 18, and passed September 25 by a vote of 5 to 4, in spite of protests by the Automobile Club.

"The only course left open to protect the interests of property owners who pay for the construction of the streets and to protect the motoring public who use these thoroughfares, is through the referendum." the club said in a statement. The statement continues in part:

"The engineering investigation carried on by the Automobile Clut of Southern California for the past several years to determine the cause of the breaking up of State and county highways and city streets demonstrated clearly that excessively loaded vehicles were responsible to a very large degree.

"While the investigations developed the fact that improper construction of the roads was the major cause of failure, it was also developed that the heavily loaded vehicles accelerated the destruction of the pavement. It therefore became evident to the officials of the Automobile Club of Southern California that a material reduction in the weight limits of motor trucks was necessary, and at the last session of the State Legislature a law was enacted fixing the gross load of all four-wheel vehicles at 22,000 pounds; to protect the rights of those vehicles of greater capacity already in use, this law provides that motor trucks which weigh unladen more than 10,000 pounds shall have the right to carry a maximum load, weight of vehicle included, of not to exceed 24,000 pounds until December 31, 1926.

"In the arguments before the City Council on this subject representatives of the club showed that of the approximately 3260 miles of city streets are comprised of the city streets are comprised of the city streets are comprised of the city streets are comprised of the

PERCENTAGE SMALL commercial or truck type, and that not to exceed 10 per cent of this number ban awail themselves of the increased load limit provided by this ordinance. 'In other words,' said Mr. McStay, 'thirty-six out of every 10,000 motor-propelled vehicles using the city streets of Los Angeles are to be permitted to destroy those streets for the \$964 other users.

TOO LATE-

Streets Declared Torn Up by Heavy Hauling

iation yesterday by the Airtomobile Club of Southern California. The weight limit recommended by the club is 22,000 pounds and the State law fixes the limit at 22,000 pounds.

The Automobile Club urges all cliptons to sign these petitions in

stroy those streets for the \$964 other upers.

"The arguments made by the operators of heavy trucks that the reduction of load limits will increase the cost of building are ridiculous, for our investigation clearly discloses that by far the greater part of building materist transported over the city streets is hauled on loads not to exceed. 22,000 pounds in weight. It therefore follows that the only people profiting by the increase of truckload weights would be the owners of what are commonly known as heavy-duty trucks."

an de Kamp Company to Enter-

This evening the firm of Van de Kamp's Holland Dutch Bakers will give an informal Halloween party and dance for their 250 employees and dance for their 200 employees and friends at the main offices of the company at 257 Werdin Place. A five-piece jazz orchestra will be provided for the dancing.

A unique feature of the entertainment will be the Holland Dutch refreshments. This party is an annual event with the Van de Kamp concern.

PAINTING and tinting, low rates. No job too small. C. HARLEY, BOYLE ALLO.

"DREAM VALLEY"

NLY in the sun-drenched Southland--dear, golden California---is one perplexed by necessity for choosing from MANY beautiful homesites! ... "I just don't know where I want to choose for my permanent home!" We say: "Everything is so wondrous, so beautiful!"

But that is before you round the last tree-laced bend in the white road and Montecito Park---in Sparr Heights---unfolds in a panorama of sheerest beauty! Then, you will conclude, your search is ended.

Have you ever driven through Glendale and a short mile or so beyond, out Verdugo Road, into "Dream Valley"? One moment you are in a hustling, bustling, chattering city---the next moment you are in a broad, placid valley where rises Sparr Heights, the new city, with its restricted Montecito Park residential district.

Words are futile, but think!---fifteen hundred acres, always in the sunlight, and edging in graceful curves to the foothills and then precipitately to the tall peaks that stand sentinel in a circle all around; the grave, dignified, sturdy Sierra Madres, the Verdugo Hills and the San Rafaels.

. . . orderly peace! These words tell the atmosphere of Montecito Park in Sparr Heights . . . Only the singing of the happy birds, the laughter of little children at play, the guttural tones of contented toilers with timber and stone and cement, the distant hum of the motors in the broad highway . . . As if by magic, dainty houses rise on the gently terraced slopes of Montecito Park, half hidden in the slender trees, and buried 'neath the flaming flowers . . .

Here, in Montecito Park, with the purple hills for background, you will find the home of your dreams available to you .

You will find a business district segregated by itself . . . Street cars . . A beautiful community building given by BARNUM-WAL TERS CO., developers of the city of Sparr Heights, to its people . . . And, too, there's a rich, rambling, old-English style country club set against the hills, THE OAKMONT COUNTRY CLUB, almost complete and to have an eighteenhole golf course before winter, a great swimming pool, etc . . .

Life is rich indeed in the finer things in Sparr Heights' Montecito Park! And until you've seen Montecito Park—not just from Verdugo Road—but from the hills and the meadows heavy now with purple fruit, you have not realized that the sunlit Southland could produce such exquisite, soul-filling beauty!
